Booking.com Connectivity

Bienvenido a la conexión de booking.com nativa de ZAK. Al final del proceso, Booking.com estará 100% conectado y:

- Acquired reservations will be automatically integrated on Zak, including cancellations and modifications.
- Precios y disponibilidad se actualizarán de forma automática y permanente.
- Todo será 100% automático.

Antes de continuar

The setup of is very easy and safe. However, it's better to understand the steps of the process to be more prepared and so more effective.

- As first step, fill in the form at the bottom of the page, inserting the Booking.com Hotel ID you want to connect.
- · After that, you need to enable the XML connectivity on your Booking.com Extranet.
- Once Booking.com will confirm the connectivity, Zak will download your Booking.com Setup. During this stage, all of your Booking.com Products will be closed.
- Now you will be able to configure your Booking.com Products. Your products will remain closed until configured. So, no hurry!

Primer paso: vamos

Please, specify on the following form your Booking.com Hotel ID. We also need the currency Booking.com uses to sell your rooms. Thanks.

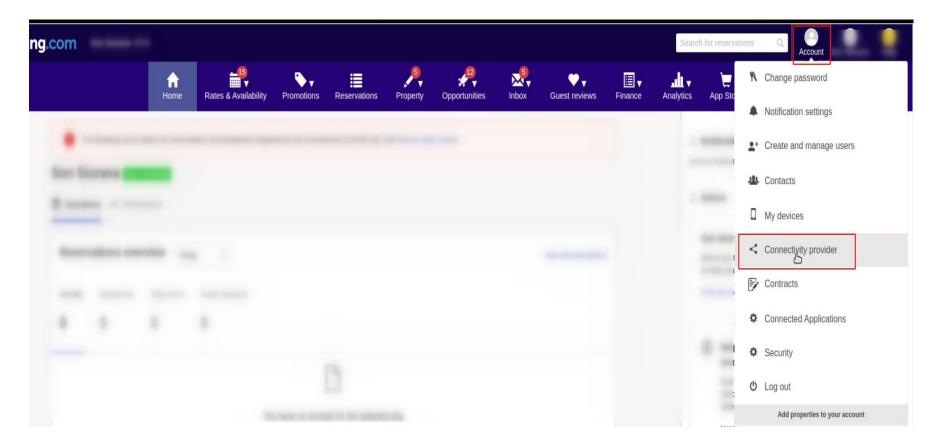

Ayuda

We encourage you to prepare your Products and your Rates on Zak to speed up the process. This way, as soon as your Channel Setup will be downloaded, you will be very fast to correctly configure it. Página de Gestión de Productos aquí

3) **DESDE LA EXTRANET DE BOOKING.COM** VE A LA SECCIÓN DE:

- CUENTA y
- PROVEEDOR DE CONECTIVIDAD

- 4) EMPIEZA EL **PROCESO DE CONEXIÓN** CON WUBOOK (3 PASOS):
 - 4.1) BUSCA Y SELECCIONA **EL PROVEEDOR**:

Connectivity provider

Want to manage your rates, availability and reservations on Booking.com and other travel websites, all in one platform? Then you probably need a connectivity provider (a channel manager or a PMS for instance).

As your account on Booking.com isn't currently connected to any provider, you can search here to either connect your account to your existing provider, or look through our provider recommendations to connect to a new provider:

Search for a provider

Enter the name of your connectivity provider in the following box, or choose a recommended provider from the list below. If your provider isn't listed here, please contact them for assistance.

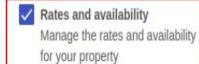

Wub

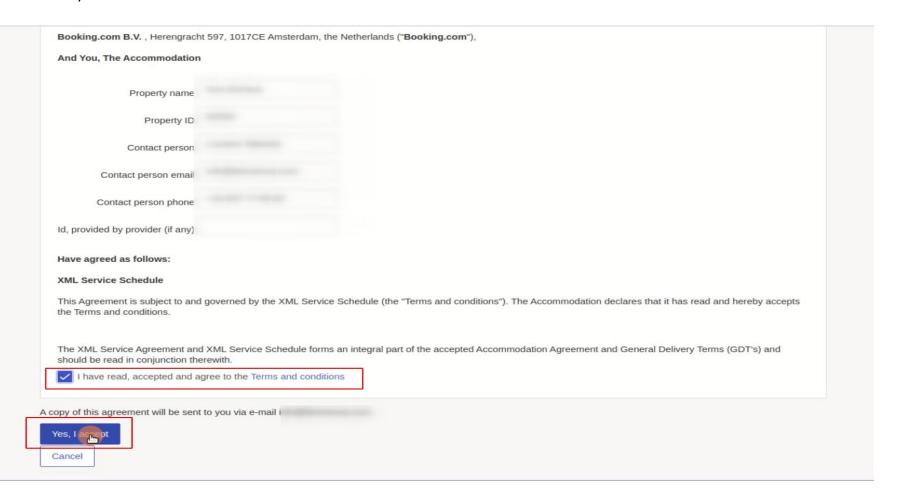

Select features to integrate with the channel manager

Manage your existing and future reservations

4.2) ACEPTA LAS CONDICIONES Y CONTINUA:

4.3) CONFIRMA LA CONEXIÓN AUTOMÁTICA:

Status of the connection request: Waiting for provider confirmation

We're currently waiting for WuBook confirmation to activate the connection with you, WuBook should map all rooms and rates before the connection gets activated.

Reset connection request

Summary of your pending request:

- · WuBook is the connectivity provider handling your connection
- · The requested type of connection: Reservations, Rates and Availability
- · This connection request was submitted on

Next steps:

active.

- · WuBook will map all your rooms and rates in their system
- Once mapping is complete. WuBook will confirm that they're ready to establish the connection
- Don't connect me automatically to the provider. Send me instructions to activate my connection manually by email on info@ .com
- com once the connection is Connect me automatically to the provider. Send me a confirmation email on info@

Save Saved! You'll receive a confirmation email once your connection is active.

Note: your calendar should be automatically imported when your connection is activated.

Please make sure your property is bookable again on Booking.com as soon as possible. If your rates, availability or restrictions aren't imported to your new connectivity provider calendar after you activate your connection, please contact WuBook for assistance.
